SELF-BELIEF ENCHANTMENT

Belief is everything. It shapes your life, your dreams, and your desires. Believing in the magic of yourself is the key to a positive, deliciously defined you. This enchantment works with the symbolic power of the four elements (fire, water, air, and earth) along with the fifth unknown, but most powerful, element: you.

WHAT YOU NEED

- * Red candle
(fire energy)
- * Pure spring water
in a small bowl
(water energy)
- * Red pen/pencil

This spell works best during a waxing moon. Light the candle and place the bowl of water in front of it (fire and water reflecting one another maximizes their power). Write the following words beneath each of the five crystals illustrated above with your red pen. Writing invokes air energy, and the illustrated crystals represent earth energy.
