

OVERCOMING OBSTACLES

Apart from financial wealth, there's also prosperity of mind, body, and spirit. Often, on our path to serenity, there are obstacles in the way. The map opposite shows an island fraught with dangers. This spell will allow you to overcome any hurdles or problems so you can reach your treasure—good fortune and well-being.

On the illustrated island is a point of departure (where the ship is docked) and a treasure chest. There are also five dangers (symbolic of the four elements and the mystical fifth element):

- Deep lakes
- Parched desert
- Terrifying scorpion
- High mountain range
- Erupting volcano

Start at the ship and draw a line that crosses the island, passing through each danger. At each danger zone, write down a word that sums up an obstacle in your life.

Once you have made your way to the chest, write down the treasure that will truly make you feel prosperous in mind, body, and spirit.

Once you have cast this magic island spell, all obstacles will be overcome on your way to prosperity.
